15
YEARS
GUARANTEE

EN 13329-31

The right choice when the flooring needs to be cost effective, but real quality is still essential.

32

20
YEARS
GUARANTEE

EN 13329-32

Versatile floors where higher demands have to be met, and we need to feel particularly at ease.

33

25
YEARS
GUARANTEE

EN 13329-33

The right solution to make a good impression and where the floor is subjected to a lot of use.

Guarantee valid in accordance with EGGER Guarantee Conditions.

PROFILE

The new JUST clic! profile guarantees perfect professional laying: no glue, “ready to walk on” immediately and excellent surface stability. Patented under EP 1 441 087 and EP 1 462 587.

FLOORING-STUDIO

In just a few clicks in the FLOORING-STUDIO, you can experience the floor of your dreams in different settings and with the wall colour of your choice. This can all be changed again quickly and easily with a couple of mouse clicks.

ANTISTATIC

Due to antistatic properties, electrostatic charges are reduced.

SURFACES

BRILLIANT Rustic, deep-brushed structure set brilliantly in context thanks to the glossy surface.

CERAMIC The Ceramic structure complements the tiled appearance perfectly.

NATURAL PORE The surface that begs to be touched: The fine pore structure exactly follows the grain of the wood and lends pure vitality to the floor.

OILED The texture with a noticeable difference: premium and semi matt in looks, robust in character and velvety to the touch.

RUSTIC The deep-grained Rustic textured surface highlights the brushed and lively vigour of rustic decors.

VELVET MATT The noble Velvet Matt surface creates a matt appearance all of its own.

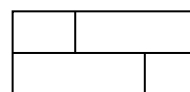

WOODLINE The natural Woodline surface brings classically elegant decors into their full glory.

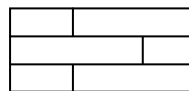

DECOR STYLE

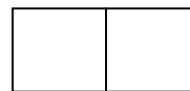

1-strip

2-strip

3-strip

Block

WOODVISION®

2-SIDED WOODVISION® BEVEL
The longitudinal beveled edge accentuates the rustic floorboard character of the flooring.

4-SIDED WOODVISION® BEVEL
The circumferential V-bevel creates a perfect wood floor appearance from all angles.

SILENZIO®

Noticably quieter - The sound-absorbing underlay fitted directly onto the panel makes an audible difference: A pleasant warm sound, just like a wooden floor!

Even more quiet - with the 2.5 mm thick special cellulose underlay, silenzio® provides noticeably reduced footstep and ambient noise and also distinctly improves comfort underfoot.

It can't get any better. Nothing is left to chance with the 4 mm silenzio®. Footstep and ambient noise has never been so quiet.

FLOORLINE® – THE LAMINATE FLOORING THAT LEADS THE WAY.

With a multitude of decors, perfectly matching details and technical refinements, FLOORLINE® embodies the suitable life style for every room and for all requirements: whether fully in trend or classically elegant, whether for domestic or commercial use, whether for normal or heavy-duty use – FLOORLINE® combines highest quality with an elegant design.

ADVANTAGES

HYGIENE

One of the most hygienic solutions - No dirt or stains which cannot be removed, therefore reducing bacteria on the floor.

LIGHT-FASTNESS

UV light-fast – Even after years of exposure to light, your floor will remain as new: no fading, no stains, no shading.

SHOCK RESISTANCE

Guaranteed no damage – Even if something falls on it – we vouch for a timeless beautiful floor with our shock resistance guarantee.

SWELLING

Robust to moisture – The specially developed swell-barrier coreboard makes your floor resistant to ingress of moisture. Even if a mishap does occur your floor will remain as new.

LONGEVITY

Guaranteed long-lasting beautiful floors – The extremely hard surface of the floor provides for long-lasting beautiful decor surfaces and edges. We ensure this with our abrasion guarantee. That even includes the edges.

SILENZIO®

Strength lies in tranquility: silenzio® is the name of the comfort choice for footstep and ambient noise reduction. The underlay made of recyclable cellulose directly fixed to the panel reduces the subjective noise perception by up to 50% as compared to laminate flooring without silenzio®. Matching to every type of use, silenzio® offers finishes for normal, medium and hardest wear conditions.

SOLUTION 31 – real all-rounder in proven quality

UNIVERSAL 32 – the classic for all domestic areas

COUNTRY 32 – for the comfort factor in rustic style

MODERN 32 – a different appearance and fully in trend

ACCESSORIES

PE underlay film 0.2 mm

Sound-proofing underlay 3 mm

FOR THE CORRECT SUB-FLOOR

Optimum laying accessories on the laying surface. The 3 mm thick PE impact sound insulation in conjunction with laminate floorings ensures a reduction in impact sound.

CLIC SEALER - seals tight

STRIP-EX sealing glue

FOR PERFECT LAYING

Laying quickly, simply and cleanly with the correct components: floor laying kit, CLIC SEALER joint sealer, the STRIP-EX sealing glue and much more.

Skirtings 4 and 6 cm

Skirting 8 cm

Beading profile

FOR CLEAN ENDING

The full range for the perfect finishings: 4 cm, 6 cm and 8 cm skirting, beading profiles and attachment systems.

HDF and ALU floor profile

FOR SEAMLESS TRANSITIONS

Perfectly coordinated with the decors; border, motion, stair and transition profiles in HDF and aluminium make for a smooth finish.

Integrated LED floor light

FOR REAL HIGHLIGHTS

The unique LED light system from EGGER can be incorporated in your floor. The round LED lamps are available in sets of five including required accessories.

Repair set Decor Mix & Fill

Laminate cleaner Clean it

FOR LASTING BEAUTY

Even easy-to-maintain floors need to be well looked after, with the Decor Mix & Fill repair set for example, or the Clean it laminate cleaner.

MAINTENANCE

SIMPLY CLEAN!

A lot of dirt can be dealt with by having large doormats! For the rest, use the brush attachment on your vacuum cleaner. Now and then you should also wipe the floor with a damp cloth, taking care to clean the bevels in the longitudinal direction. For optimum cleaning we recommend Clean it, the system-related EGGER laminate floor cleaner.

STUBBORN STAINS?

For stubborn stains such as coffee, tea, lemonade, beer, fruit or milk stains, lukewarm water with a squirt of alcohol or vinegar cleaner will be sufficient. Paint, lipstick, ink, tar, nail polish and so on can be removed easily using a conventional absorbent cloth and a universal cleaner. Depending on the stains, cleaning solvent (benzene) or nail varnish remover can also be used. Important: neutralise surface with water afterwards.

OPTIMUM PROTECTION FOR LAMINATE FLOORS!

- Attach felt pads to the feet of all furniture
- Lift furniture when moving it rather than pushing or dragging
- Use soft furniture castors
- Mop up any spillages immediately
- Do not use steam cleaners

DAMAGED NEVERTHELESS?

No matter how hard-wearing your floor is, a panel may still get damaged. If the damage is slight, the problem can be easily solved with the system related repair paste Decor Mix & Fill light and dark. More severely damaged panels can be easily replaced by a professional fitter. Please contact your local stockist.

PRODUCT STRUCTURE

- 1 Resilient, highly abrasion-resistant overlay
- 2 Decor paper
- 3 Special HDF-coreboard made from natural wood fibres
- 4 Balancer
- 5 silenzio® underlay (only with identified decors)

We only use HDF-core boards of the quality standard E1.

All papers are resin-impregnated.

POSITIVE ECOLOGICAL BALANCE FOR EGGER LAMINATE FLOORINGS

SUSTAINABILITY IS OUR RESPONSIBILITY

As a manufacturer of quality products made of wood we are aware of our responsibility towards our customers and partners - not only in respect of the quality of the products, but also in questions of sustainability.

For this reason we feel it is our responsibility to handle our most important raw material, wood carefully and to use it in the best way possible.

WOOD, OUR MOST IMPORTANT RAW MATERIAL

The long-term securing of sustainable forestry is of the highest priority at EGGER.

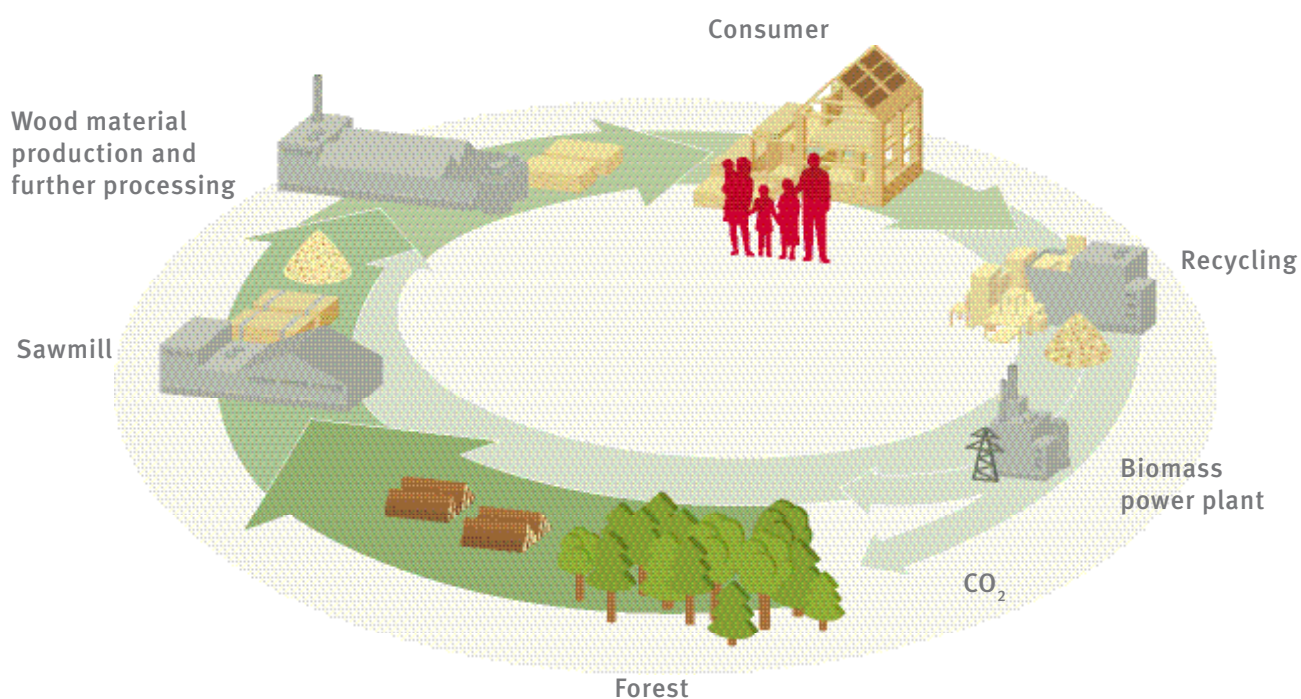

For production we therefore exclusively use wood from sustainable forestries. This was endorsed for us by PEFC*, one of the leading certification systems in Europe.

* Programs for Endorsement of Forest Certification schemes

FROM THE TREE TO THE PRODUCT - A CLOSED CYCLE

Using the valuable raw material wood in the best way possible is a fundamental concern of EGGER. The corporation therefore counts on fully integrated company locations. There, wood is initially used in a material form. This extends from solid wood production in the sawmill up to the production of wood materials such as laminate floorings. Residual wood and recycling wood that cannot be used for production is used thermally in our own biomass power plants. The CO₂ created in all production stages is in turn absorbed by the regrowing trees and transformed to oxygen. A fully closed biological material cycle is created. In this way EGGER makes „MORE FROM WOOD“.

EGGER LAMINATE FLOORINGS COMBINE QUALITY AND ENVIRONMENTAL FRIENDLINESS

The scrutiny by our employees (here Walter Ising) secure our quality.

With their state-of-the-art environmentally friendly production plants, EGGER meets the very high customer quality requirements. The plant locations Wismar and Brilon (both in Germany), where amongst other things laminate floorings are manufactured, are constructed according to the highest ecological standards.

They are fully integrated plant locations, where the highest quality is ensured. We have all our products voluntarily and permanently tested for environmental compatibility: the positive ecological balance for our laminate floorings has been determined by PE International and confirmed by the independent DIBU Institute (German Institute for construction and environment).

LAYING MADE EASY!

With the help of the room dimensions considering an average cutting waste of 10%, it is easy to calculate the number of required packs for the selected laminate flooring.

For an optimum laying experience, EGGER offers an extensive accessories program from underlay to care products.

ROOM AREA

Room length: m

Room width: m

Total surface area in m² (length x width): m²
 + + Cutting waste (on average 10% of the total surface area): m²
 = = Required surface of laminate flooring: m²
